

How to Reset Password:

This step by step guide will walk you through the steps on resetting your password to your Emony Website. It is important to note that after three failed attempts to log in, the system will automatically lock your account for 10 minutes as a security measure.

1. Begin on the log in screen. Click the “**Forgot your Password**” link.

A screenshot of the Heritage Financial Strategies login page. At the top center is the company logo, which features a stylized tree and the text "Heritage FINANCIAL STRATEGIES". Below the logo are two input fields: the first is labeled "Username" with a person icon, and the second is labeled "Password" with a lock icon. Underneath these fields is a checkbox labeled "Remember Me" which is checked. A blue "Sign In" button is positioned below the checkbox. At the bottom of the form area, there is a blue link that says "Forgot your password?".

2. Enter your Username and Email associated with your account.
3. Next, you will be promoted to answer a security question. These questions were answered when you registered for your account access. Your answers to the questions can be managed from your privacy settings.
4. Upon successfully verifying your identity, the system will generate an email that includes a link to reset your password.
